

# EKYRAIL MICROWAVE

## PRODUCT OVERVIEW

The Ekyrail commercial microwave is a rugged 1000 W unit designed to meet the needs of locomotive crews and railway environments. Designed for reliability and ease of use, it allows meals to be quickly heated directly onboard.

Equipped with simple mechanical controls, it is easy to operate even in demanding working conditions. Its durable construction ensures reliable performance while minimizing maintenance requirements.

Designed for professional use, this microwave is ideal for locomotive cabs, maintenance facilities, and other railway environments where durability and ease of operation are essential.
